WHO WE ARE

CRAFTING SUCCESSFUL OUTCOMES

Technology businesses are at the heart of the Indian economy. At DNS, we are dedicated to creating business solutions from sophisticated technologies like AI, cloud, blockchain, and ML of the world. Having completed 100+ projects and achieved 100% customer satisfaction, we are a global leader in the tech space. At DNS, we aim to make artificial intelligence the new revolutionary idea. We enable our clients to solve complex business problems and inspire innovation, change, and development with the right talent. Positioned at the forefront of advanced technologies, our mission is to lead the way in the AI world.

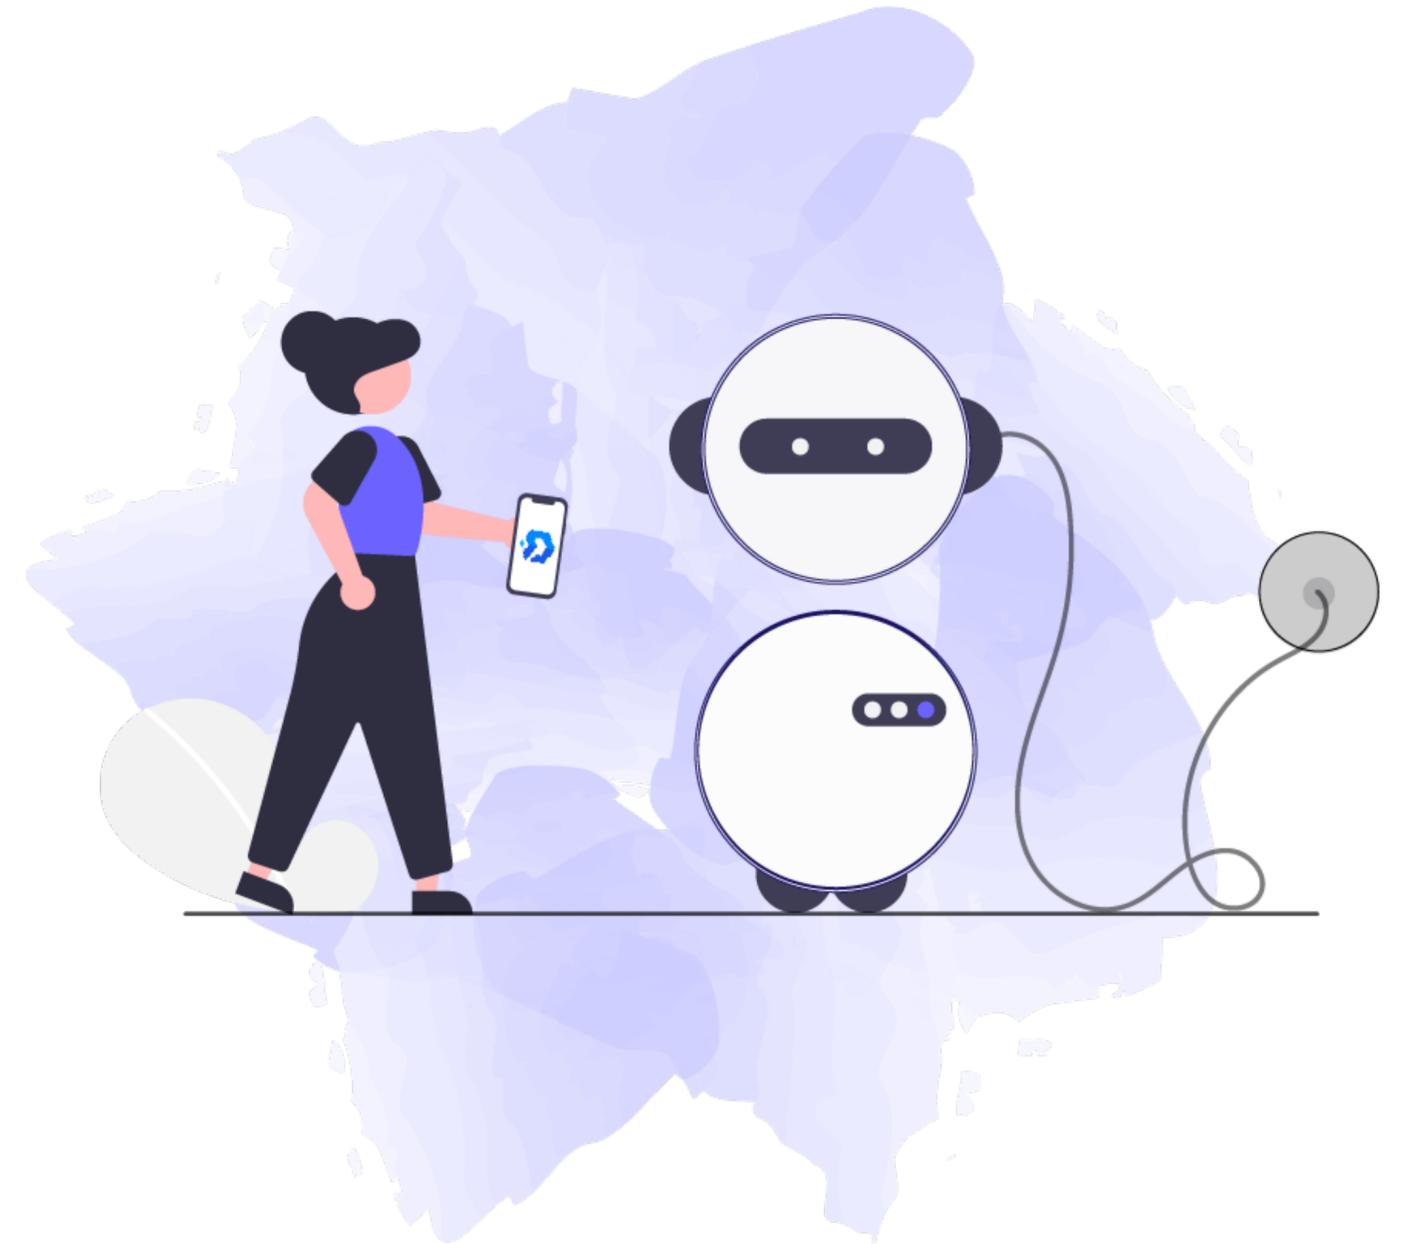

We're committed to offering services in AI, ML, Blockchain, Web and Mobile app development, GIS Development, SAAS, E commerce, DevOps & Cloud migration, and much more. We invest more in R&D than anyone else in the industry, so there's always a new release around the corner.

WHAT WE OFFER

AI AND ML

Artificial intelligence and machine learning technology have taken the world by storm in a positively unimaginable way. We can help you lead the AI world. With a dedicated team of AI and ML experts, we harness the power of AI and ML to deliver real business value. To meet the dynamic expectations of our customers, we maximize the use of technology.

At DNS, we are working hard to ensure that artificial intelligence benefits are accessible to every business, whether small or large. Research is the core of our mission to bring real-world AI solutions. With a dedicated team, we aim to solve problems for our users in exciting new ways.

WHAT WE OFFER

BLOCKCHAIN TECHNOLOGIES

With our blockchain services, we can help you put blockchain at the center of your digital transformation. Turn to DNS blockchain solutions to evolve, envision, and transform your solution. Wherever you are in your blockchain journey, DNS can help you lead the way forward. Scale up the competitive advantage by partnering with us.

MOBILITY SOLUTIONS

Being one of the mobility solutions providers in Kochi, we bring together the latest in the mobile tech arena, engagement strategies, and system integration. Whether you are a startup or a business leader looking to explore mobile-first opportunities, we can help you transform your business by unleashing your workforce productivity and enhancing the end-user experience.

WHAT WE OFFER

WEB APPLICATION

As a leading web application development company, we can design simple applications tailored to your business needs. Combining with frontend technology, our MERN stack developers offer high-performing real-time app development services for your fast-growing business. With cutting-edge technologies and server-side web application frameworks like Ruby on Rails, DNS develops powerful applications focused on customer relationship enhancement, process automation, cost savings, and competitive advantage creation. Our developers are proficient in programming languages like Go Lang, PHP .NET, Vue.JS, and much more.

Having worked with 100+ clients globally and combining development expertise with modern frameworks and technologies like Mongo DB, Express, Node.js, and Angular, we create MEAN Stack solutions that are dynamic, scalable, compliant, and robust. At DNS, we leverage our expertise in the MERN Stack framework and Mongo DB, Express, React, and Node.js to improve your mobile and web app's user experience.

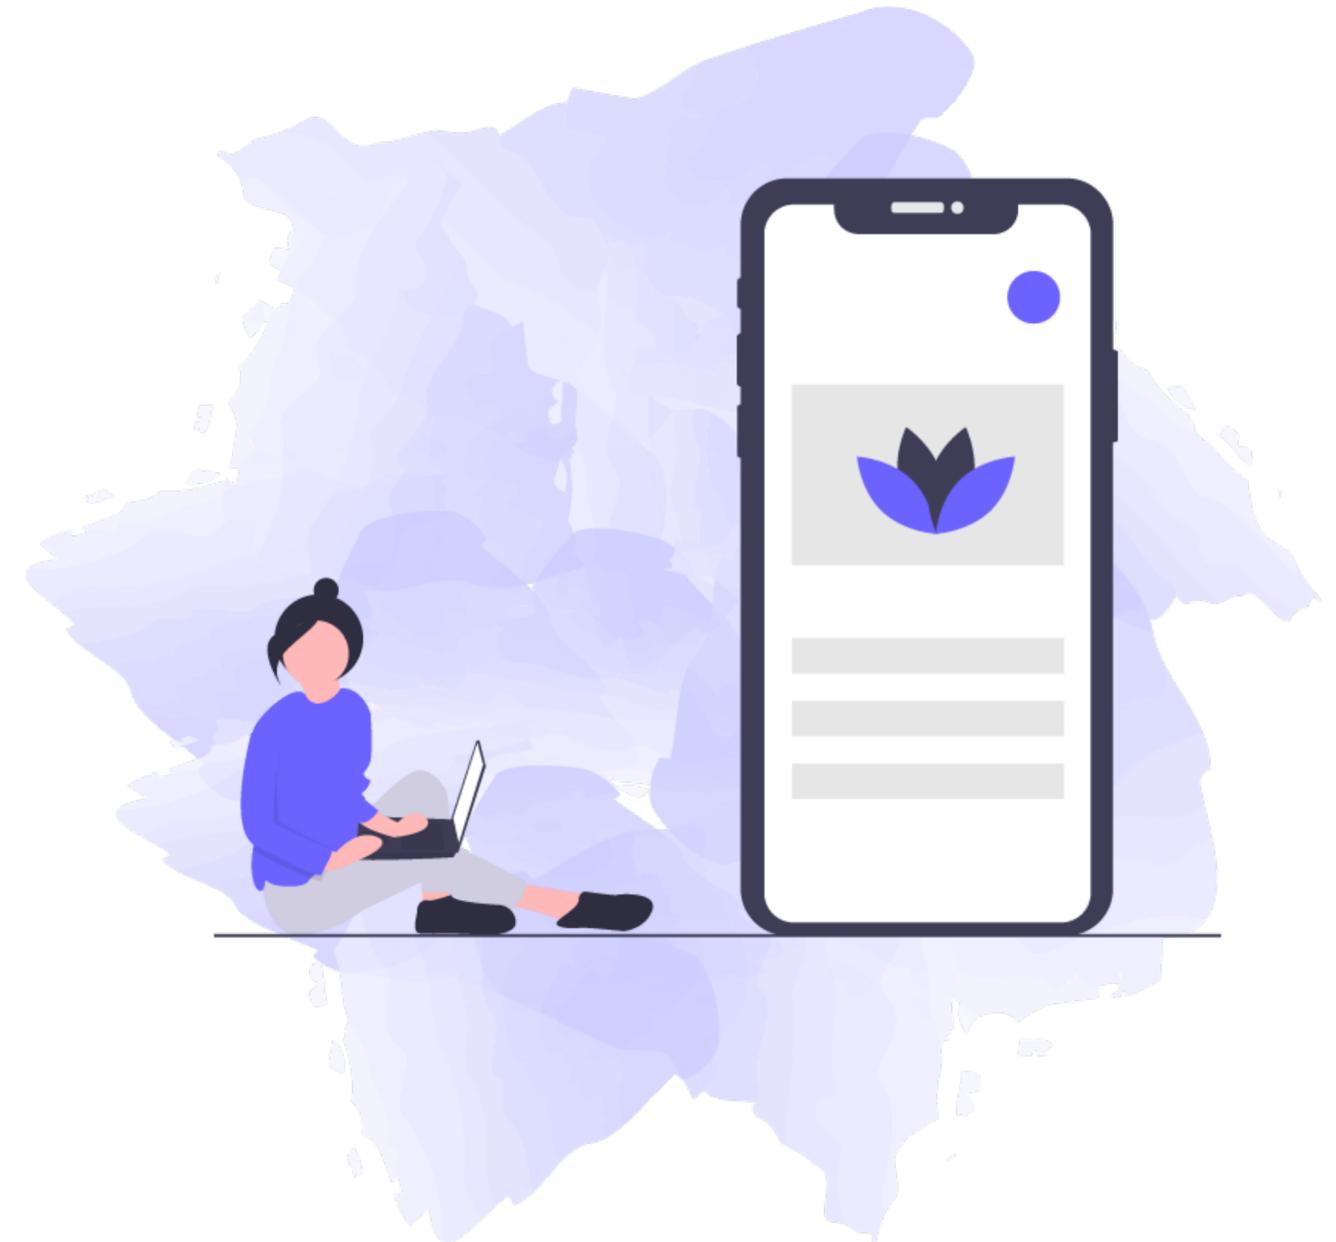

WHAT WE OFFER

MOBILE APPLICATION

We lead the mobile app development process, right from ideation to delivery and ongoing support. Leveraging mobile application frameworks, including Flutter and React native, we provide tailor-made mobile app development services. Whether it is a consumer-oriented app or a transformative business solution, we cater to all.

DIGITAL TRANSFORMATION

Looking to start your digital journey? From developing a digital business strategy to deploying digital solutions, we take care of all your digital transformation needs. Be ready to accelerate your organization's journey with us.

WHAT WE OFFER

DEVOPS SERVICES

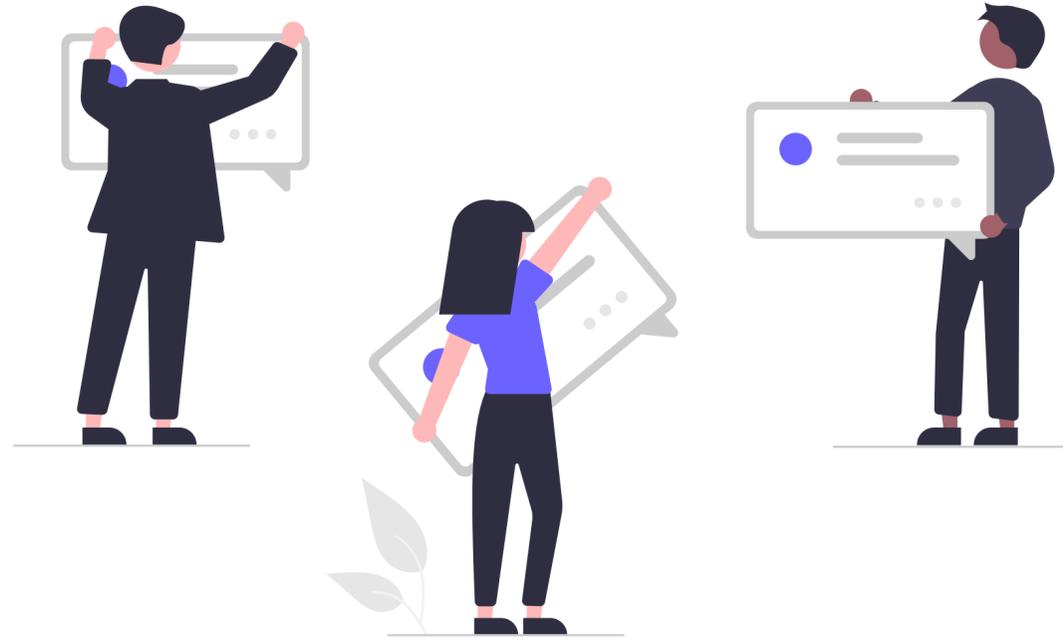

With a dedicated DevOps team, we can help you reap the benefit of the DevOps strategy, and improve the quality of software solutions. No matter what technologies and tools you are using or how complex your project is, we bring together people, technology, and processes.

CLOUD MIGRATION

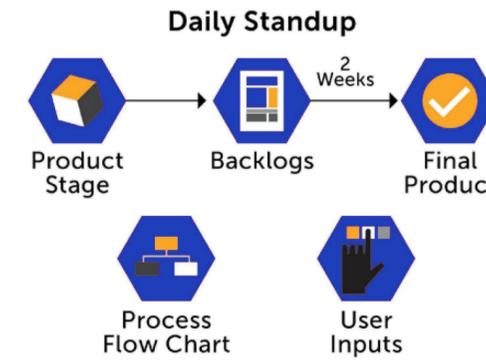

We help you in digital transformation through our cloud migration services. Transform your business into a valuable change agent for innovation by ensuring the smooth transition of business applications and data to leading cloud platforms.
